As The publication of this issue commenced at 7.50 p.m. The China Mail. HONGKONG, SATURDAY, JULY 27, 1889. THE first report of the Steam Launch Co. is not very encouraging. The result of the first ten months' working is a debit balance of \$98.86; to which must of course be added the depreciation of the Company's On demand. ... 30 dave sight, private, fold Loat, 100 this ...

stock for which no allowance has been made in the accounts—a depreciation. which, if we are to judge from the rough way in which the Company's launches were sometimes handled by the Chinese in charge, must be protty considerable. When the Company was started, opinion was about equally divided as to its chance of success. The promoters looked for a good return from towing and hiring business. They had some prospect of obtaining a monopoly of the Tsim-tsa-tsoi traffic, and they thought they could do a profitable business by establishing regular ferry lines, with launches running at stated hours (not irregularly, as the Chineso launches) between such stations as Yau-ma-ti, Hunghom, and at No. 18, Bank Buildings, Queen's Shau-ki-wan. On the other hand, it was very much doubted whether the Company would ever be able to compete with the Chinese, whose expenses of management are less, and who, it was expected, would do everything they could to run down their rivals. Although it would be rather rash to draw definite conclusions from a trial of only ten months, we must admit that' the anticipations of promoters have scarcely been realised. Judging from advertisements recently inserted in the local press, we should imagine that the Company is anxious to push the hiring business, and perhaps the Chairman may be able at the meeting on Tuesday to hold out good hopes of a satisfactory business in this line. As to the ferry trade, however, we fear he will not have very great prospects to lay before the shareholders. The Company has, as far as is apparent to outsiders, made very little headway in this direction since it started. It has bad, on the Douglas Lapraik & Co. July 28, at daylight. Russell & Co. the traffic is yet scarcely sufficient for two

ing gradually, although not so fast as might

Teim-tea-teoi ferry will pay the Company fairly well. As regards the connection with Chinese outlying villages, we fear the chances are less bright. The Company has of course to depend to a considerable extent on Chinese traffic, and the experience acquired with the Hunghom farry shows that it cannot be relied on. As long as the Company obtained large support from the European employes of the Dock Company, the launch was able to run without much loss, but when the Dook custom fell off the traffic would no longer pay. Very few Chinese passengers made use of the boats, the Chinese launch-owners having succeeded in almost completely boycotting the European launch. They ascertained the The s. s. Westmeath, from London, left hours at which the Company's launch left Hunghom, and arranged that one of their launches should run in and leave a few minutes before the other. If there happened to be any passengers on board the European launch, they left at once when the Chinese boat appeared, although the fare charged by either party was the same. In order to counteract this, the Company recently began to send the Hunghom launch to Quarry Bay, and stopped the time-table. We do not know if they have succeeded by this means in obtaining Chinese passengers, but their launch, from the fact that it does not now leave at stated time, is of little use to Europeans and that part of the traffic must have greatly decreased. The non-success of the Launch Co., as far at least as this ferry part of the traffic is concerned, is a subject for general regret. The Chinese launches may b sufficient for the Chinese trade, but they

have no provision for European passengers. They leave at irregular intervals, and there | Rev. G. H. We trust the Steam Launch Company will yet be able to establish regularpaying ferries between Lauch places as Hunghom, Yau-ma-ti &c., because every increase in the facility of communication be-MESSES Adamson, Bell & Co. inform us tween the different parts of the island tends towards the development the Colony and the relief; of congested central districts, and it is somewhat of a hardship that Europeans cannot take a trip in these directions without putting themselves to the heavy ex-

pense of hiring a launch or to the great

inconvenience and almost positive torture

of having recourse to the ordinary Chinese At the meeting on Tuesday another subject, not exactly connected with the ordinary working of the Company but still one in which it is materially concerned, may raise some discussion. With a debit balance of about \$100 on the ten months' boiling water and apply over the seat of transactions and with not very bright prospects for the future, the shares of this Captain Nantes, of the Gualier, reports concorn are quoted at 150 % premium in having passed at 7 a.m. yesterday, in lat. the market. Nothing more has been heard 17° 6' N. long 114° 15' E., the steam-yacht of the proposed Government subsidy of which something was said at the last meet ing, but even were there any such prospect the quotation is too absurdly high to permit one for a moment to think that it was fixed with a remote regard even to the speculative value of the stock. There has been a disturbing influence, the history o which is pretty well known in the Colony. The 'bears' first had their inni ngs and a good deal of short selling took place. The bulls then came in and cornered the shares, the value of which rose from about 30 % discount at the beginning of the year to about 250 % premium at the end of the first month. As there have been no demonstrations in the Supreme Court, we suppose the most of the short sellers have recognised their gambling debt and either paid up or compromised. The operation, however, could not have been a pleasant one to them, and it is possible that bulls' and 'bears' may have a few things to say to each other at the approaching meeting. We hope that the result of the meeting will be to put the concern on sounder basis, if there is really an honest

Shameen have struck work. One of their number, so the story runs, became rather familiar with a young lady belonging to the boating population. A complaint was made and the Municipal Council sent the coolie into the city, where he was cangned.' The other coolies resented this treatment of their fellow-workman and refused to work. The strike is, of course, causing considerable inconvenience.

WE learn from the Independente of Macao that a great sensation has occurred in judicial circles there. Senbor Marques d'Oliveira, the Procurador of Chinese. affairs, being unable to exercise his duties, Dr. Telles was elected as his substitute. Availing themselves of this opportunity, two of the supposed murderers of the policeman José Maria da Luz, through their solicitors, applied for release, on the ground that fifteen days had elapsed without their being tried as criminals. To this the acting Procurador readily assented, and they were set free. Great indignation is felt at this extraordinary procedure on the part of the acting Procurador, as there is strong suspicion of these men being two of those who assessinated the ill-fated policeman Luz, who had identified one of them as his aggressor. The law permits that any prissoner may regain his freedom if fifteen days elapse without a trial, counting from the time of his arrest, but the general opinion is that a little more discretion should have been exercised in a particular case like the one in question.

Acr II of the comedy entitled 'After the Opera,' which was to have been performed in the Police Court this morning, failed to come off, owing to a hitch in the arrangements. It is now underlined for Monday morning.

Four men from Yaumati were brought before Mr Wodehouse to-day on a charge of causing the death of a coolie by beating him. The deceased was found by an Indian constable in a house at Tai-kok-sui, lying on a table, with his hands tied to his back and bruised from head to foot. He lived only a short time. Mr Rodyk appeared on behalf of the defendants. Kwok Hing Tai, a hoatowner, said that on the night of the 21st inst. while asleep on board his junk which was beached for repairs at Tai-koksui, he was awakened by a cry of 'Thief. The cry came from a matched on the beach, which was occupied by his mother and some children. When he get up he found that his mother had hold of the thief. Five of the boutbuilder's men took the man away from her and dragged him to the beatbuilders' shed. Two of the men were dragging him along and the others were beating him with their fists. This witness's mother said she was awakened on the night in question by something touching her face and saw a man in the matched. She shouted 'Thief' and caught hold of him. Some of the boatbuilder's mon rushed in and sho handed the man over to them. The case was remanded.

THE check of the chair-coolie grows more colossal every day. It naturally shows it self in its fullest proportions where it is not likely to be slapped for unduly asserting. itself. Consequently, where the coolie has a lady for his employer he becomes an intolerable nuisance. An illustration of this fact was seen in a case before Mr Wodehouse to-day. Mak Aman, a chair-coolie in the employ of Mrs Korff, West Terrace, was charged with wilfully disobeying his employer's lawful and reasonable orders. Mrs Korff said the defendant had been in her employ six days, and his wages were aix dollars a month. Yesterday about 9 a.m., she told him to clean the staircase, this being part of the work which he undertook to do when he was engaged. He was very importment, but did the work. Complainant had to go out in the afternoon and ordered her chair, but both coolies had gone out and were nowhere to be found. She had ordered the defendant and the other coolie not to leave the house, as she wanted her chair at 4.30. The defendant did not come back until 6.40, and complainant was prevented from going out till that time by the absence of the coolies. The other coolie did not come back till half-an-hour arter the defendant's arrival. On the defendant's return, complainant engaged an outside coolie and got into her chair. She intended to go out for a walk, but the defendant carried her straight to the Police Station, and kept whistling all the way in an importment manner. Defendant said he was obliged to go out in the afternoon and make purchases. He was bound over in one surety of \$10 to be of good behaviour for six weeks, in default to be committed for 14 days.

IMPORTANT MEASURE OF PUBLIC ECONOMY. -A correspondent of the Times writes :-'It has recently been discovered in Downing street that steamer passage-money on the coast of China includes food while on board: and instructions have accordingly been sent out that British officials, while travelling by steamer on duty, are to refund -2 dols. 50 cents (about 8s.) for every day they are on board, in order to cover the cost of the food supplied them. The practice of supplying food to travellers by ocean steamers, has existed since the invention of steamers: but the knowledge seems to have only just reached Downing-street, with the gratifying consequences here stated."

Pioneer, telegraphs that Mr. A. R. Col quhoun. Deputy Commissioner of the Ruby Mines, has been suspended under the orders of the Government of India; and there is too much reason to believe that the information is correct. It has been well known for some time past that Mr Colonhoun had incurred the displeasure of the Government he was serving by furnishing communications of en exceptionable character to a Press correspondent, who hardly conceals his intention of employing his position for injuring that diovernment's reputation. But the gravamen of his offending consisted in his doing so after he had received orders to desist and, as the case against him lies, after he had given his word that he would do so. Mr Colquboun was specially appoints to the Burms Commission when s civil administration was being organised for the Upper Province, on account of his peculier qualifications, like Mr J. G. Scott. THE POPE AND THE ARMENIAN

CHURCH. In the Boston Missionary Herald there is a translation of a vigorous reply given by the Armenian Church Council to an invitation given to Armenians last year by the Pope to join the Roman Church. The Pope, in his communication, alluded to the friendly relations which have always been maintained between the Armenians and the Church of Rome and expressed the hope that their return to the Orthodox communion might be an example to all other communities, who, though worshipping Christ, are separated from the Church-et

Bishop Melchizedek Mooradian, through whom the reply was sent, after briefly recapitulating the arguments of the Pope,

*Behold, gracious brother, this is the summary of your circular; and if we try to abbreviate it still more. Te find that you invite the children of the Armenian Church to union with the Church of Rome, and with this union, to obedience to the Pontiff

'Why do you invite us?-To know the truth and accept it. What is that truth!-The supremacy of the Roman Postiffs and humble obedience to their supremacy. But naturally the Armenians must know what it is they must leave, and what it is they must accept, and whether it be desirable to leave the one and to accept the other. This inquiry will simplify everything, and we bope that you will acknowledge the necossity of such an investigation. 'Gracious brother, the Armenians must

leave the Christian and apostolic foundation of their Church in order to accept the invitation of your circular. They must leave | Wl'ostock, 29.80, 70', 99 see | 2; 0 | -Jesus Christ."
